

## Overview

- Easy to operate
- Surface mountable
- Two tank controller
- LED indications for water level in tank
- Available with S.S Sensors / magnetic Sensors / float switch
- Automatic Control of starter according to set water level in tanks

## Technical Specification

Supply voltage	230 VAC, 50 Hz $\pm$ 10%
Switch device	Power Relay
Output contact Rating	15 Amp
Sensing element	S.S Prod
Indication	motor on Over head high Over head low Under ground high Under ground low
Auto/ manual facilities	Yes
Enclosure	PVC box
Weight	0.670 gms
Dimension (mm)	
-Dimension (HXWXD)	(95 X 144 X96) mm
-Base mounting	Yes

## Application

- Mcc panels of water pump in hotels, house, industries
- High rise towers, housing societies, commercial complexes, municipal water stations, etc
